What is NSRA?

NSRA is the National Street Rod Association... representing every aspect of the fast growing sport of specialty automotive vehicles, from the people that enjoy being a participant to the industry that has evolved from within the sport. NSRA is the organizing body that made the sport what it is today, and it is the reason the growth of enthusiast participation has continued at a steady pace since the association was founded in 1970.

The NSRA has enjoyed its growth and prospered, and today is a solid association, founded on a strong footing and building on a strengthening reputation of service to its members. We provide leadership, guidance, and fun events for enthusiasts who favor driving their specialty cars wherever and whenever they want to.

Membership in the National Street Rod Association surpassed fifty-thousand before the association's twenty-fifth anniversary, and the rate of growth continues every year. We grow because of car enthusiasts, just like yourself, see what we do, like what we do, and tell other car enthusiasts about it. NSRA is an organization working for you: in areas of contesting unreasonable motor vehicle legislation which adversely affects the car hobbyist; as an industry liaison; as a car club organizer/ helper; and we publish the only news monthly magazine in the sport so that you can be a better informed enthusiast. NSRA has a network of state representatives, all specialty vehicle enthusiasts, to assist on a local level, and a unique, highly respected, nationwide voluntary vehicle safety inspection program which is respected by both state and national legislators.

The fun part of NSRA comes in the form of activities. The premier event in the sport is the NSRA Street Rod Nationals, the world's largest automotive participant event. The Nationals are the backbone of the sport, drawing from 10,000 to 14,000 registered street rods, customs and classics each year. The Nationals are supplemented with Divisional Nationals to bring the NSRA type of activity to even more parts of the U.S. The NSRA events are a combination of games, manufacturer displays and special attractions for participants of all ages and interests. Like the sport itself, NSRA events are geared to family entertainment with something to interest every member of a car enthusiast family.

NSRA's monthly publication, **StreetScene**, is produced exclusively for the members. Each month **StreetScene** is loaded with information about upcoming events, coverage of rod runs from small to large, safety articles, stories about the manufacturers and suppliers and interesting regular columns that are meant to entertain while being informative. There is a free buy-sell-trade section and the most complete listing of coming events to be found anywhere. **StreetScene** is also one of the best source guides for the suppliers of parts and services, as these companies are regular advertisers because they know they will reach the truly active car enthusiast. Many members feel **StreetScene** magazine is worth more than the annual membership fee, yet it is supplied automatically with each membership.

The National Street Rod Association was founded by car enthusiasts, and it is an association for car enthusiasts. While each staff member of NSRA is a skilled professional in his or her duties, each is also an active participating enthusiast, enjoying the sport to its fullest. This is a combination rare to special interest associations the size of NSRA, but it is but one of the reasons the association has grown and prospered so well in its relatively short history. NSRA has adopted a great slogan; "*For specialty vehicle enthusiasts, by specialty vehicle enthusiasts*", and that pretty well says it all.

That's what NSRA is, The member association interested in you and the sport of specialty automotive vehicles. We're here, helping even if you are not a member, but we can do more for you if you are a member. As our numbers grow, we can do more. And as our numbers have grown, we have done more. With your membership in NSRA you will be supporting an association that is striving to obtain the recognition and benefits you and your sport deserve. You will get a distinctive windshield decal, a membership cards, and a subscription to **StreetScene** (12 issues for each year that you join). Use the convenient membership application on the back of this brochure, and you will find that when you become a part of NSRA, the NSRA will become a part of you.
